FIGURES

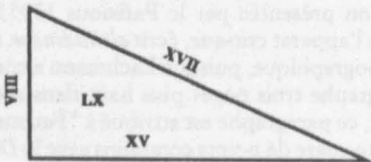

Les figures que nous reproduisons ici (avec l'aide de M. Gagliardi qui, au Centre d'Histoire Ancienne de l'Université de Besançon, a bien voulu se charger de leur informatisation et auquel nous adressons nos remerciements) à leur dimension originelle et avec les indications qu'elles comportent sur le ms. sont celles du Parisinus lat. 13955. Loin d'ajouter au texte quelque éclaircissement que ce soit, elles ne font généralement que le déparer: les proportions ne sont pas respectées dans le dessin des lignes; les chiffres censés donner les dimensions que le texte correspondant accorde aux figures sont souvent faux, comme sont souvent fausses d'ailleurs, les figures elles-mêmes. C'est pourquoi nous avons choisi de reléguer ces figures à l'écart du texte latin.
